

Terms of Use

Terms of Use for marketmania.ai
Last updated: January 26, 2026

These Terms of Use ("Terms") govern your access to and use of marketmania.ai ("marketmania.ai," "we," "us," or "our"). By using marketmania.ai, you acknowledge these Terms.

Your use of the service is also governed by our Privacy Policy.

1) Description of the Service

marketmania.ai is a subscription-based platform that helps users prepare structured market inputs for analysis by selected AI models (LLMs) and review model-generated outputs in one place. The service collects and organizes market data, selected market metrics, and (where available) market news from third-party data providers/aggregators, and supports features such as reusable presets, scheduled runs, and result delivery by email and/or Telegram (where configured by the user).

marketmania.ai does not provide market analysis on its own and does not provide financial advice.

2) Eligibility (18+)

marketmania.ai is intended for users 18 years of age or older. By using the service, you represent that you are at least 18 years old.

3) Accounts

You are responsible for maintaining access to your account and for all activity that occurs under your account.

We may suspend or terminate access if we believe your account is being used in a way that violates these Terms, creates security risks, or harms the service or other users.

4) Requests (Usage Units)

A "request" is a unit of usage tied to AI model runs.

- 1 request = 1 selected AI model (LLM) run.
- If you select multiple AI models for the same input, requests are counted per model. For example, selecting 2 models = 2 requests, selecting 3 models = 3 requests.
- The number of tickers, markets, exchanges, timeframes, or other inputs that may be included within a request depends on your active subscription plan and its limits.

5) Subscriptions, Billing, and Add-ons

5.1 Subscription billing

marketmania.ai is offered on a subscription basis and renews automatically on a recurring basis (typically monthly). Subscription billing occurs on your billing cycle date (e.g., the date you first subscribed), as shown in your account and/or through our payment processor.

Payments are processed by Stripe (or another third-party payment processor, if applicable). We do not store full payment card details.

5.2 Plan limits and features

Different subscription plans may include different limits, rights, and features. Current plan details and limits are shown on our prices page.

We may update plan limits or features over time.

5.3 Subscription requests

Requests included in your subscription refresh each billing period. Unused subscription requests do not roll over to the next billing period.

5.4 Add-on requests

You may purchase additional requests ("add-ons") separately.

- Add-on requests carry over between billing periods.
- Add-on requests expire after 1 year from the date of purchase.
- Add-ons increase your request balance but do not change the limits, rights, or features of your active subscription plan.

5.5 Plan changes (upgrade/downgrade)

You may upgrade or downgrade your subscription plan. When you change plans, your plan limits/rights/features change according to the new plan. Your request balance is preserved, but usage under the new plan is subject to the new plan's limits.

5.6 Bonus requests; abuse prevention

We may provide bonus requests (for example, upon registration) at our discretion. Bonus requests are intended for genuine use and may be limited per user.

Creating multiple accounts, using automated sign-ups, or otherwise attempting to obtain bonus requests through abuse or circumvention is prohibited. We may revoke bonus requests and/or suspend or terminate accounts involved in such activity.

6) Cancellation and Refund Policy

You can cancel your subscription from your account settings. After cancellation:

- you will retain access (including your plan limits/rights/features and remaining requests) until the end of your current paid billing period;
- your subscription will not renew and you will not be charged again unless you re-subscribe.

Refunds: All sales are final and we do not offer refunds, except where required by applicable law.

Failed runs: Requests are charged only after results are successfully generated and returned. If a run fails and no results are produced, requests are not deducted.

7) Scheduled Runs and Delivery (Email / Telegram)

marketmania.ai may allow you to run presets on a schedule. If you enable scheduled runs and configure delivery destinations, you instruct and authorize marketmania.ai to send results only to the destinations you provide.

- Email delivery: If you provide an email address for scheduled delivery, you agree to receive scheduled results at that address.
- Telegram delivery: If you configure Telegram delivery, you agree to receive scheduled results from the marketmania.ai bot via Telegram. Delivery may be configured to a Telegram channel and/or direct messages depending on your settings.

You may change or disable delivery at any time by updating scheduled run settings (e.g., removing email and/or Telegram destinations). If no delivery destination is configured, schedules may still run and results may remain available in your account history.

You are responsible for providing correct delivery details and maintaining any required permissions (for example, adding the bot to a Telegram channel, if needed).

8) Acceptable Use

You agree not to:

- use the service for unlawful purposes;
- interfere with, disrupt, or overload the service;
- attempt to bypass usage limits or access non-public parts of the service;
- misuse the service in a way that harms other users or the integrity of the platform.

Publishing results: You may publish or share model-generated outputs and summaries (including in communities or paid channels), provided you comply with applicable law and third-party rules.

Restrictions on repackaging: You may not (without our permission):

- present marketmania.ai as your own platform or “white-label” service;
- mass repackage or sell the service outputs as a standalone product branded as marketmania.ai.

9) Third-Party Services and Data Sources

marketmania.ai relies on third-party data providers/aggregators and third-party services (including payments, email delivery, and Telegram integrations). We do not control and do not guarantee the availability, accuracy, completeness, or timeliness of third-party data, metrics, or news.

Third-party outages, changes, or limitations may affect the service.

10) No Financial Advice

marketmania.ai does not provide financial, investment, legal, or tax advice. Nothing on marketmania.ai should be considered a recommendation to buy, sell, or hold any asset. The service is provided for informational and research purposes only.

11) AI Model Outputs and Market Data Disclaimer

Outputs displayed in marketmania.ai are generated by selected AI models (LLMs) and may be incomplete, inaccurate, delayed, inconsistent, or otherwise incorrect. Market data, metrics, and news are sourced from third parties and may contain delays, omissions, or errors.

You should independently verify information before taking any action.

12) User Responsibility and Risk Acknowledgment

You are solely responsible for how you use the service and any decisions or actions you take based on any outputs. You assume all risks associated with using marketmania.ai, including the risk of trading or investment losses.

13) Intellectual Property

marketmania.ai and its branding, website, and platform (including the design and software) are owned by us and/or our licensors. You receive a limited, non-exclusive, non-transferable right to use the service for your personal or internal business use, subject to these Terms.

14) Service Availability; Changes; Suspension; Termination

The service is provided "as is" and "as available." We may modify, update, suspend, or discontinue any part of the service at any time.

We may suspend or terminate your access if you violate these Terms, if your use creates security risks, or if it harms the service or other users.

15) Disclaimer of Warranties; Limitation of Liability

To the maximum extent permitted by law:

- we disclaim all warranties and do not guarantee uninterrupted or error-free operation;
- we are not liable for any indirect, incidental, special, consequential, or exemplary damages;
- we are not liable for trading losses, lost profits, loss of data, or other losses arising from or related to your use of the service.

If liability cannot be excluded, our total liability will be limited to the amount you paid to marketmania.ai for the service during the period required by applicable law.

16) Changes to These Terms

We may update these Terms from time to time. If we do, we will update the "Last updated" date above. Continued use of marketmania.ai after changes means you acknowledge the updated Terms.

17) Contact

For support, please contact support@marketmania.ai.

For other questions and suggestions, please contact contact@marketmania.ai.
